

This seminar will be run concurrently with the Designing with Architectural Precast Concrete Seminar. It will include a joint lunch and joint evening reception that brings architects and engineers together for networking.

June 9, 2011 | 8:30 a.m. — 5:00 p.m. (Registration is from 8:00 a.m. — 8:30 a.m.)

Joint Evening Reception with Designing with Architectural Precast Concrete Attendees from 5:30-7:30 p.m.

## Seminar Overview

The PCI Structural Design Seminar is a course for both engineers who have designed with precast/prestressed concrete in the past, as well as those who have not. This course will guide attendees through a quick preliminary design of a three-story, integrated precast office building using the *PCI Design Handbook*, 7th edition, as a reference. Attendees will then review erection drawings and final designs prepared by the precaster or specialty engineer. Other material that will be covered includes a detailed step-by-step connection design, an EOR checklist for reviewing erection drawings and calculations, and the changes from the 6th to 7th edition of the Handbook. This highly interactive course is a "don't miss!"

## Continuing Education Credits

Attendees will earn 7.5 Professional Development Hours (PDH) or 7.5 HSW-Learning Units (LU). A certificate will be provided at the conclusion of the seminar and attendance data will be submitted to the National Council of Examiners of Engineers and Surveyors, for which PCI is a Registered Continuing Education Provider. Attendance data will be submitted to AIA for any AIA member.

## Seminar Fees

\$295 — This fee includes a copy of the *PCI Design Handbook*, 7th edition, to use as a reference for years to come; a CD of the handbook; seminar notes; breaks; and a joint lunch and joint evening reception with architects attending the Designing with Architectural Precast Concrete Seminar. Participants will also receive a FREE one-year individual PCI Membership.

\$225 — includes all of the materials above except the *PCI Design Handbook* text. You will receive a CD-only of the handbook. (Bring your laptop to class to facilitate your learning experience if you choose this discounted registration type.)

Visit [www.pci.org/DHBseminar](http://www.pci.org/DHBseminar) to register and for more information.

A credit card is required for online registration.
